

**Our strengths. Your gains.**

## **A Commitment to Safety, Health and the Environment: PMA's Regulatory Compliance Certification Program**

### **PMA Policy Statement on Health, Safety and the Environment**

The PMA is committed to encouraging, educating and supporting its members in the shared goal of leading our industry by promoting best practices and exceeding all applicable Health, Safety and Environmental regulations.

The PMA executive leadership team and board of directors are committed to this goal by providing a variety of resources to member companies to help them continuously improve their Health, Safety and Environmental practices in order to protect their employees, customers, and the communities in which they operate.

The PMA believes that integrating sound Health, Safety and Environmental practices into all aspects of our businesses are vital to the continuation and growth of our industry, the success of member's businesses, the maintenance of a safe and healthy workplace, the wellbeing of our communities and customers and the ability of future generations to meet their needs in a safe and sustainable manner.

The PMA will encourage all membership companies to participate in our HSE Certification Programs in order to promote the following:

- Adoption of best practices for the safe operations of facilities, including compliance with PMA guidance documents and a goal of zero injuries, illnesses and incidents.
- The minimization of environmental impacts including a goal of zero waste and emissions. Where waste is generated we will promote proper handling and reuse/recycling in an environmentally responsible manner.

The PMA encourages all members to participate at local, state and federal levels to encourage the promulgation of reasonable, sound, and science based policies, laws and regulations that improve and protect health, safety and the environment.
